

Mi-Glow® WCP is a specially

formulated, fast drying white

contrast paint, used to create a

consistent background on the

component surface in a visible magnetic particle inspection.

When dry, the white contrast
paint is resistant to the wet
method baths used for
inspection, but is easily removed

from the demagnetized component surface with

acetone. Mi-Glow® WCP can be

used with any of the Mi-Glow® and CircleSafe® visible particle

materials.

# Mi-Glow® WCP

# **Physical Characteristics**

White liquid with a characteristic odor.

### **Particle Certification**

Mi-Glow® WCP is compliant with ISO 9934-2.

#### **Particle Color**

Not applicable.

## Average Particle Size

Not applicable.

#### **AMS Standard**

Not applicable.

# **SAE Sensitivity**

Not applicable.

## **Temperature Range**

32-120°F (0-49°C)
